

MAC, a privately-owned construction consultancy with multiple UK offices, engages ESyn3rgy to provide a fully managed, high availability, **complete IT business solution.**

The construction industry relies heavily on collaboration between the multiple stakeholders that form part of the overall project team. The interaction between these parties generates substantial quantities of data and documentation so, having easy, reliable and secure access to IT enablement tools is critical.

### Their CHALLENGES

ESyn3rgy have worked with MAC since the business was in its infancy. The MAC founding Directors had a clear requirement; they wanted to implement an Enterprise quality Information Technology strategy without the associated, prohibitive costs and management complexity. Due to the fast-paced nature of the sector MAC operate within, it was acutely important that ESyn3rgy got it right from inception. A key factor in this was to ensure that the foundation would allow scalability and minimal internal management.

#### About MAC Construction Consultants

MAC are a privately-owned construction consultancy delivering services to publicly funded bodies, major retail organisations, private individuals, education providers, end users, property developers, heritage trusts and major city centre investment vehicles. MAC operate nationally from a number of strategically placed offices which include London, Leeds, Manchester, Milton Keynes and Bristol.

A pivotal need for MAC was to deliver a **mission critical estimating application** to its staff from within a single cloud environment and deployed 'as a Service'.

Other key requirements for the business were:

-  Access from any location
-  Internal it resource not required
-  Easily scalable
-  Pay as consumed I.T.
-  Access from any device
-  Instant provisioning
-  Secure remote access
-  Project collaboration

---

## Our SOLUTION

---

Following a detailed requirement gathering exercise, ESyn3rgy recommended MyView given its ability to meet every stated requirement and also providing a flexible platform that would develop in line with a growing business.

MyView, developed by ESyn3rgy, has been created by using market leading Microsoft technologies including Azure Cloud and the Office 365 application suite. With these at the core of MyView, MAC are provided with enablement across almost every business process whilst adhering to accepted industry standards and ensuring continuity of service.

Through the adoption of MyView, MAC were instantly able to provide end users with Office 365, shared document storage, collaboration and access to their mission critical estimating software from a secure, fully managed Cloud.

MAC has achieved substantial growth and increase in staff headcount. ESyn3rgy have been able to instantly scale MyView to match the dynamic requirements of this business.

---

## Benefits TO THE CLIENT

---

The business benefits delivered to MAC through the engagement of ESyn3rgy and the implementation of MyView were notable, rapidly realised and wide sweeping. Those of most significance are:

- |   |   |
|---|---|
|  Reduced capital costs                     |  Save office space - no server, storage onsite           |
|  Monthly predictable & scalable costs      |  Access of data & applications from anywhere             |
|  No microsoft licence purchase or upgrades |  Allows users to instantly work from anywhere            |
|  Delivery of non-SaaS software             |  A simple and secure approach to 'bring your own device' |

As MyView has been developed with Enterprise standard infrastructure, applications, data protection and security, **MAC were able to concentrate on developing their business with the assurance** that their IT estate was being maintained 24x7 and data was not at risk.

### About ESyn3rgy

ESyn3rgy was established to address a need in the industry. High quality, business improving IT has never been more accessible but, all too frequently its implementation is flawed by a marketplace that is dominated by the 'What' rather than the 'How'. ESyn3rgy emphasise on the 'How' and this is what sets us apart. We are able to provide you with access to Enterprise standard IT services without the associated costs applied in such a way that success is assured, and completeness achieved.
